

Fund Description

Strategy:

The Horizon Kinetics Blockchain Development ETF is an actively managed ETF that seeks long-term growth of capital. It seeks to achieve its investment objective by investing primarily in equity securities that to benefit, either directly or indirectly, from the use of blockchain technology in connection with the issuance, facilitation, custody, trading and administration of digital assets, including cryptocurrencies.

- No turnover of senior portfolio management since inception of the firm.

What is a Blockchain?

A Blockchain is a distributed peer-to-peer ledger of immutable transactions.

- Groups of transactions are encrypted into “Blocks” of data using cryptographic algorithms.
- Each new block is posted to all participants and chronologically linked to the previous block.
- This creates a system where anyone involved can verify ownership and history of all transactions.
- Virtually any asset can be digitized and exchanged via a blockchain.

Blockchain Development Companies utilize this technology to improve their services or create new solutions dedicated to supporting the digital assets exchanged over blockchains.

Why This Fund?

A Prospective Approach to Blockchain Development

Key Factors	BCDF
Management Style:	Active
Market Cap Focus:	All Cap
Blockchain Exposure:	Developing Initiatives Long-Term Scalable Solutions Synergistic With Decentralized Digital Assets
Investment Drivers:	Transaction Volume Crypto Adoption Tokenization
Valuation Focus:	Profitability Operating Cash Flow ¹ Capitalization

¹ Cash Flow (CF) is the increase or decrease in the amount of money a business, institution, or individual has.

Performance History (%) as of 09/30/24

	QTD	YTD	One Year	Since Inception
Total Return % (Market Price)	13.37	13.64	33.07	5.27
Total Return % (NAV)	13.46	14.14	33.39	5.32
S&P 500 TR	5.89	22.08	36.35	18.66
NASDAQ Composite Total Return Index	2.76	21.84	38.64	20.51

The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than their original cost and current performance may be lower or higher than the performance quoted. Performance current to the most recent month-end can be obtained by calling (800) 617-0004.

Short term performance, in particular, is not a good indication of the fund's future performance, and an investment should not be made based solely on returns. Returns less than 1 year are not annualized. A fund's NAV is the sum of all its assets less any liabilities, divided by the number of shares outstanding. The market price is the most recent price at which the fund was traded.

All data is as of 09/30/2024 unless otherwise specified.

Disclosures

Please consider carefully a fund's investment objectives, risks, charges and expenses. For this and other important information, obtain a statutory and summary prospectus by visiting <https://horizonkinetics.com/products/etf/bcdf/#resources>. Read it carefully before investing.

FUND RISKS:

Investing involves risk, including the possible loss of principal. Shares of any ETF are bought and sold at market price (not NAV) and may trade at a discount or premium to NAV. Shares are not individually redeemable from the Fund and may only be acquired or redeemed from the fund in creation units. Blockchain Development Companies Risks. At times, Blockchain Development Companies may be out of favor and underperform other industries or groups of industries or the market as a whole. In such event, the value of the Shares may rise and fall more than the value of shares of a fund that invests in securities of companies in a broader range of industries. Blockchain technology is new and many of its uses may be untested. Transacting on a blockchain depends in part specifically on the use of cryptographic keys that are required to access a user's account (or "wallet"). The theft, loss, or destruction of these keys could adversely affect a user's ownership claims over an asset or a company's business or operations if it was dependent on the blockchain. The development and acceptance of competing platforms or technologies may cause consumers or investors to use an alternative to blockchains. Cybersecurity incidents may compromise an issuer, its operations, or its business. Digital assets that are represented and trade on a blockchain may not necessarily benefit from viable trading markets. Digital commodities and their associated platforms are largely unregulated, and the regulatory environment is rapidly evolving.

Equity Market Risk. The equity securities held in the Fund's portfolio may experience sudden, unpredictable drops in value or long periods of decline in value. **Emerging Markets Risk.** The Fund may invest in companies organized in emerging market nations. Investments in securities and instruments traded in developing or emerging markets, or that provide exposure to such securities or markets, can involve additional risks relating to political, economic, currency fluctuations or regulatory conditions not associated with investments in U.S. securities and instruments or investments in more developed international markets. **Non-Diversification Risk.** The Fund is considered to be non-diversified, which means that it may invest more of its assets in the securities of a single issuer or a smaller number of issuers than if it were a diversified fund.

This material references cryptocurrencies, including bitcoin. Horizon Kinetics' subsidiaries manage products that seek to provide exposure to bitcoin and other cryptocurrencies. The value of bitcoins is determined by the supply of and demand for bitcoins in the global market for the trading of bitcoins, which consists of transactions on electronic bitcoin exchanges ("Bitcoin Exchanges"). Pricing on Bitcoin Exchanges and other venues can be volatile and can adversely affect the value of the bitcoin. Currently, there is relatively small use of bitcoins in the retail and commercial marketplace in comparison to the relatively large use of bitcoins by speculators, thus contributing to price volatility that could adversely affect a portfolio's direct or indirect investments in bitcoin. Bitcoin transactions are irrevocable, and stolen or incorrectly transferred bitcoins may be irretrievable. As a result, any incorrectly executed bitcoin transactions could adversely affect the value of a portfolio's direct or indirect investment in bitcoin. Only investors who can appreciate the risks associated with an investment should invest in cryptocurrencies or products that offer cryptocurrency exposure. As with all investments, investors should consult with their investment, legal and tax professionals before investing, as you may lose money.

Murray Stahl is a member of the Board of Directors of Texas Pacific Land Corporation ("TPL"), a large holding in certain client accounts and funds managed by Horizon Kinetics Asset Management LLC ("HKAM"). Officers, directors and employees may also hold substantial amounts of TPL, both directly and indirectly, in their personal accounts. HKAM seeks to address potential conflicts of interest through the adoption of various policies and procedures, which include both electronic and physical safeguards. All personal and proprietary trading is also subject to HKAM's Code of Ethics and is monitored by the firm's Legal and Compliance Department.

The NASDAQ Composite (NASDAQ) represents an unmanaged, broad-based basket of stocks. They are typically used as a proxy for overall market performance. NASDAQ Composite returns stated above do NOT include reinvested dividends. The Standard & Poor's 500 Index represents an unmanaged, broad-based basket of stocks. It is typically used as a proxy for overall market performance. The S&P 500 Index returns assume that dividends are reinvested. An investor cannot invest directly in an index.

The Horizon Kinetics Blockchain Development ETF (BCDF) is distributed by Foreside Fund Services, LLC ("Foreside"). Foreside is not affiliated with BCDF or Horizon Kinetics LLC or its subsidiaries.
