Horizon Kinetics Inflation Beneficiaries ETF

Shareholder Expense Example

(Unaudited)

As a shareholder of a Fund you incur two types of costs: (1) transaction costs for purchasing and selling shares; and (2) ongoing costs, including management fees and other fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds. The examples are based on an investment of \$1,000 invested at the beginning of the period and held throughout the entire period (January 1, 2021 to June 30, 2021), except as noted in footnotes below.

ACTUAL EXPENSES

The first line under the Fund in the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

The second line in the table provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds. Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	Hypothetical Account Value 1/1/21	Beginning Account Value 1/11/21[^]	Ending Account Value 6/30/21	Annualized Expense Ratios	Expenses Paid During the Period
Horizon Kinetics Inflation Beneficiaries ETF					
Actual	N/A	\$ 1,000.00	\$ 1,207.80	0.85%	\$ 4.40 ⁽¹⁾
Hypothetical (5% return before expenses) .	\$ 1,000.00	N/A	\$ 1,020.58	0.85%	\$ 4.26 ⁽²⁾

^(^) Fund commenced operations on January 11, 2021.

⁽¹⁾ Actual expenses are calculated using the Fund’s annualized expense ratio multiplied by the average account value during the period, multiplied by the number of days in the most recent inception period, 171 days, and divided by the number of days in the most recent twelve-month period, 365 days.

⁽²⁾ Hypothetical expenses are calculated using the Fund’s annualized expense ratio multiplied by the average account value during the period, multiplied by the number of days in the most recent six-month period, 181 days, and divided by the number of days in the most recent twelve-month period, 365 days.

Horizon Kinetics Inflation Beneficiaries ETF

Notes to Financial Statements

June 30, 2021 (Unaudited)

1. ORGANIZATION

Horizon Kinetics Inflation Beneficiaries ETF (the “Fund”) is a non-diversified series of Listed Funds Trust (the “Trust”), formerly Active Weighting Funds ETF Trust. The Trust was organized as a Delaware statutory trust on August 26, 2016, under a Declaration of Trust amended on December 21, 2018 and is registered with the U.S. Securities and Exchange Commission (the “SEC”) as an open-end management investment company under the Investment Company Act of 1940, as amended (the “1940 Act”).

The Fund is an actively-managed exchange-traded fund (“ETF”) that seeks long-term capital growth in real (inflation-adjusted) terms. The Fund seeks to achieve its investment objective by investing primarily in the equity securities of domestic and foreign companies that are expected to benefit, either directly or indirectly, from rising prices (inflation).

Costs incurred by the Fund in connection with the organization, registration and the initial public offering of shares were paid by Horizon Kinetics Asset Management LLC (“Horizon Kinetics” or “Adviser”), the Fund’s Investment Adviser.

2. SIGNIFICANT ACCOUNTING POLICIES

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 946, *Financial Services — Investment Companies*. The Fund prepares its financial statements in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) and follows the significant accounting policies described below.

Use of Estimates

The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from these estimates.

Share Transactions

The net asset value (“NAV”) per share of the Fund will be equal to the Fund’s total assets minus the Fund’s total liabilities divided by the total number of shares outstanding. The NAV that is published will be rounded to the nearest cent. The NAV is determined as of the close of trading (generally, 4:00 p.m. Eastern Time) on each day the New York Stock Exchange (“NYSE”) is open for trading.

Fair Value Measurement

In calculating the NAV, the Fund’s exchange-traded equity securities will be valued at fair value, which will generally be determined using the last reported official closing or last trading price on the exchange or market on which the security is primarily traded at the time of valuation. Such valuations are typically categorized as Level 1 in the fair value hierarchy described below.

Securities listed on the NASDAQ Stock Market, Inc. are generally valued at the NASDAQ official closing price.

If market quotations are not readily available, or if it is determined that a quotation of a security does not represent fair value, then the security is valued at fair value as determined in good faith by the Adviser using procedures adopted by the Board of Trustees of the Trust (the “Board”). The circumstances in which a security may be fair valued include, among others: the occurrence of events that are significant to a particular issuer, such as mergers, restructurings or defaults; the occurrence of events that are significant to an entire market, such as natural disasters in a particular region or government actions; trading restrictions on securities; thinly traded securities; and market events such as trading halts and early market closings. Due to the inherent uncertainty of valuations, fair values may differ significantly from the values that would have been used had an active market existed. Fair valuation could result in a different NAV than a NAV determined by using market quotations. Such valuations are typically categorized as Level 2 or Level 3 in the fair value hierarchy described below.

Horizon Kinetics Inflation Beneficiaries ETF

Notes to Financial Statements

June 30, 2021 (Unaudited) (Continued)

Deposit accounts are valued at cost.

FASB ASC Topic 820, Fair Value Measurements and Disclosures (“ASC 820”) defines fair value, establishes a framework for measuring fair value in accordance with U.S. GAAP, and requires disclosure about fair value measurements. It also provides guidance on determining when there has been a significant decrease in the volume and level of activity for an asset or liability, when a transaction is not orderly, and how that information must be incorporated into fair value measurements. Under ASC 820, various inputs are used in determining the value of the Fund’s investments. These inputs are summarized in the following hierarchy:

- Level 1 — Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- Level 2 — Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar securities, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 — Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing the Fund’s own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

All other securities and investments for which market values are not readily available, including restricted securities, and those securities for which it is inappropriate to determine prices in accordance with the aforementioned procedures, are valued at fair value as determined in good faith under procedures adopted by the Board, although the actual calculations may be done by others. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, or the appropriate stock exchange (for exchange-traded securities), analysis of the issuer’s financial statements or other available documents and, if necessary, available information concerning other securities in similar circumstances.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The hierarchy classification of inputs used to value the Fund’s investments at June 30, 2021 are as follows:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Investments - Assets:				
Common Stocks*	\$ 601,515,049	\$ —	\$ —	\$ 601,515,049
Partnerships*	4,838,090	—	—	4,838,090
Real Estate Investment Trusts*	16,085,258	—	—	16,085,258
Deposit Accounts	8,716,764	—	—	8,716,764
Total Investments - Assets	<u>\$ 631,155,161</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 631,155,161</u>

* See Schedule of Investments for industry classifications.

Security Transactions

Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses from the sale or disposition of securities are calculated based on the specific identification basis.

Horizon Kinetics Inflation Beneficiaries ETF

Notes to Financial Statements

June 30, 2021 (Unaudited) (Continued)

Investment Income

Dividend income is recognized on the ex-dividend date. Interest income is accrued daily. Withholding taxes on foreign dividends has been provided for in accordance with the Fund's understanding of the applicable tax rules and regulations. An amortized cost method of valuation may be used with respect to debt obligations with sixty days or less remaining to maturity, unless the Adviser determines in good faith that such method does not represent fair value.

Tax Information, Dividends and Distributions to Shareholders and Uncertain Tax Positions

The Fund is treated as a separate entity for Federal income tax purposes. The Fund intends to qualify as a regulated investment company ("RIC") under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"). To qualify and remain eligible for the special tax treatment accorded to RICs, the Fund must meet certain annual income and quarterly asset diversification requirements and must distribute annually at least 90% of the sum of (i) its investment company taxable income (which includes dividends, interest and net short-term capital gains) and (ii) certain net tax-exempt income, if any. If so qualified, the Fund will not be subject to Federal income tax.

Distributions to shareholders are recorded on the ex-dividend date. The Fund generally pays out dividends from net investment income, if any, at least annually, and distributes its net capital gains, if any, to shareholders at least annually. The Fund may also pay a special distribution at the end of the calendar year to comply with Federal tax requirements. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations, which may differ from U.S. GAAP. These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions which exceed earnings and profit for tax purposes are reported as a tax return of capital.

Management evaluates the Fund's tax positions to determine if the tax positions taken meet the minimum recognition threshold in connection with accounting for uncertainties in income tax positions taken or expected to be taken for the purposes of measuring and recognizing tax liabilities in the financial statements. Recognition of tax benefits of an uncertain tax position is required only when the position is "more likely than not" to be sustained assuming examination by taxing authorities. Interest and penalties related to income taxes would be recorded as income tax expense. The Fund's Federal income tax returns are subject to examination by the Internal Revenue Service (the "IRS") for a period of three fiscal years after they are filed. State and local tax returns may be subject to examination for an additional fiscal year depending on the jurisdiction.

The Fund commenced operations on January 11, 2021.

Indemnification

In the normal course of business, the Fund expects to enter into contracts that contain a variety of representations and warranties and which provide general indemnifications. The Fund's maximum exposure under these anticipated arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Adviser expects the risk of loss to be remote.

3. INVESTMENT ADVISORY AND OTHER AGREEMENTS

Investment Advisory Agreement

The Trust has entered into an Investment Advisory Agreement (the "Advisory Agreement") with the Adviser. Under the Advisory Agreement, the Adviser provides a continuous investment program for the Fund's assets in accordance with its investment objectives, policies and limitations, and oversees the day-to-day operations of the Fund subject to the supervision of the Board, including the Trustees who are not "interested persons" of the Trust as defined in the 1940 Act (the "Independent Trustees").

Horizon Kinetics Inflation Beneficiaries ETF

Notes to Financial Statements

June 30, 2021 (Unaudited) (Continued)

Pursuant to the Advisory Agreement between the Trust, on behalf of the Fund, and Horizon Kinetics, the Fund pays a unified management fee to the Adviser, which is calculated daily and paid monthly, at an annual rate of 0.85% of the Fund's average daily net assets. Horizon Kinetics has agreed to pay all expenses of the Fund except the fee paid to Horizon Kinetics under the Advisory Agreement, interest charges on any borrowings, dividends and other expenses on securities sold short, taxes, brokerage commissions and other expenses incurred in placing orders for the purchase and sale of securities and other investment instruments, acquired fund fees and expenses, accrued deferred tax liability, extraordinary expenses, and distribution (12b-1) fees and expenses (if any).

Distribution Agreement and 12b-1 Plan

Foreside Fund Services, LLC (the "Distributor") serves as the Fund's distributor pursuant to a Distribution Agreement. The Distributor receives compensation from the Adviser for certain statutory underwriting services it provides to the Fund. The Distributor enters into agreements with certain broker-dealers and others that will allow those parties to be "Authorized Participants" and to subscribe for and redeem shares of the Fund. The Distributor will not distribute shares in less than whole Creation Units and does not maintain a secondary market in shares.

The Board has adopted a Distribution and Service Plan pursuant to Rule 12b-1 under the 1940 Act ("Rule 12b-1 Plan"). In accordance with the Rule 12b-1 Plan, the Fund is authorized to pay an amount up to 0.25% of the Fund's average daily net assets each year for certain distribution-related activities. As authorized by the Board, no Rule 12b-1 fees are currently paid by the Fund and there are no plans to impose these fees. However, in the event Rule 12b-1 fees are charged in the future, they will be paid out of the Fund's assets. The Adviser and its affiliates may, out of their own resources, pay amounts to third parties for distribution or marketing services on behalf of the Fund.

Administrator, Custodian and Transfer Agent

U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services ("Fund Services" or "Administrator") serves as administrator, transfer agent and fund accountant of the Fund pursuant to a Fund Servicing Agreement. U.S. Bank N.A. (the "Custodian"), an affiliate of Fund Services, serves as the Fund's custodian pursuant to a Custody Agreement. Under the terms of these agreements, the Adviser pays the Fund's administrative, custody and transfer agency fees.

A Trustee and all officers of the Trust are affiliated with the Administrator and the Custodian.

4. CREATION AND REDEMPTION TRANSACTIONS

Shares of the Fund are listed and traded on the NYSE Arca, Inc (the "Exchange"). The Fund issues and redeems shares on a continuous basis at NAV only in large blocks of shares called "Creation Units." A Creation Unit consists of 25,000 shares. Creation Units are to be issued and redeemed principally in kind for a basket of securities and a balancing cash amount. Shares generally will trade in the secondary market in amounts less than a Creation Unit at market prices that change throughout the day. Market prices for the shares may be different from their NAV. The NAV is determined as of the close of trading (generally, 4:00 p.m. Eastern Time) on each day the NYSE is open for trading. The NAV of the shares of the Fund will be equal to the Fund's total assets minus the Fund's total liabilities divided by the total number of shares outstanding. The NAV that is published will be rounded to the nearest cent; however, for purposes of determining the price of Creation Units, the NAV will be calculated to five decimal places.

Creation Unit Transaction Fee

Authorized Participants may be required to pay to the Custodian a fixed transaction fee (the "Creation Unit Transaction Fee") in connection with the issuance or redemption of Creation Units. The standard Creation Unit Transaction Fee will be the same regardless of the number of Creation Units purchased by an investor on the applicable business day. The Creation Unit Transaction Fee charged by the Fund for each creation order is \$250.

Horizon Kinetics Inflation Beneficiaries ETF

Notes to Financial Statements

June 30, 2021 (Unaudited) (Continued)

An additional variable fee of up to a maximum of 2% of the value of the Creation Units subject to the transaction may be imposed for (1) creations effected outside the Clearing Process and (2) creations made in an all cash amount (to offset the Trust's brokerage and other transaction costs associated with using cash to purchase the requisite Deposit Securities). Investors are responsible for the costs of transferring the securities constituting the Deposit Securities to the account of the Trust. The Fund may determine to not charge a variable fee on certain orders when the Adviser has determined that doing so is in the best interests of Fund shareholders. Variable fees, if any, received by the Fund are displayed in the Capital Share Transactions section on the Statements of Changes in Net Assets.

Only "Authorized Participants" may purchase or redeem shares directly from the Fund. An Authorized Participant is either (i) a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of National Securities Clearing Corporation or (ii) a DTC participant and, in each case, must have executed a Participant Agreement with the Distributor. Most retail investors will not qualify as Authorized Participants or have the resources to buy and sell whole Creation Units. Therefore, they will be unable to purchase or redeem the shares directly from the Fund. Rather, most retail investors will purchase shares in the secondary market with the assistance of a broker and will be subject to customary brokerage commissions or fees. Securities received or delivered in connection with in-kind creations and redemptions are valued as of the close of business on the effective date of the creation or redemption.

A Creation Unit will generally not be issued until the transfer of good title of the deposit securities to the Fund and the payment of any cash amounts have been completed. To the extent contemplated by the applicable participant agreement, Creation Units of the Fund will be issued to such authorized participant notwithstanding the fact that the Fund's deposits have not been received in part or in whole, in reliance on the undertaking of the authorized participant to deliver the missing deposit securities as soon as possible. If the Fund or its agents do not receive all of the deposit securities, or the required cash amounts, by such time, then the order may be deemed rejected and the authorized participant shall be liable to the Fund for losses, if any.

5. INVESTMENT TRANSACTIONS

Purchases and sales of investments (excluding short-term investments), creations in-kind and redemptions in-kind for the period ended June 30, 2021 were as follows:

	<u>Purchases</u>	<u>Sales</u>	<u>Creations In-Kind</u>	<u>Redemptions In-Kind</u>
Horizon Kinetics Inflation Beneficiaries ETF	\$ 5,935,288	\$ 975,224	\$ 584,040,910	\$ —

6. PRINCIPAL RISKS

As with all ETFs, shareholders of the Fund are subject to the risk that their investment could lose money. The Fund is subject to the principal risks, any of which may adversely affect the Fund's NAV, trading price, yield, total return and ability to meet its investment objective.

The global outbreak of COVID-19 (commonly referred to as "coronavirus") has disrupted economic markets and the prolonged economic impact is uncertain. The ultimate economic fallout from the pandemic, and the long-term impact on economies, markets, industries and individual issuers, are not known. The operational and financial performance of the issuers of securities in which the Fund invests depends on future developments, including the duration and spread of the outbreak, and such uncertainty may in turn adversely affect the value and liquidity of the Fund's investments, impair the Fund's ability to satisfy redemption requests, and negatively impact the Fund's performance.

A complete description of principal risks is included in the prospectus under the heading "Principal Investment Risks".

7. SUBSEQUENT EVENTS

On July 7, 2021, Foreside Financial Group, LLC (“Foreside”), announced that it had entered into a definitive purchase and sale agreement with Genstar Capital (“Genstar”) such that Genstar would acquire a majority stake in Foreside. The transaction is expected to close at the end of the third quarter of 2021. Foreside Fund Services, LLC will remain the Fund’s distributor at the close of the transaction, subject to Board approval.

Other than as disclosed, there were no other subsequent events requiring recognition or disclosure through the date the financial statements were issued.

Board Consideration and Approval of Advisory Agreement

June 30, 2021 (Unaudited)

At a meeting held on October 29, 2020 (the “Meeting”), the Board of Trustees (the “Board”) of Listed Funds Trust (the “Trust”), including those trustees who are not “interested persons” of the Trust, as defined in the Investment Company Act of 1940 (the “1940 Act”) (the “Independent Trustees”), considered the approval of an investment advisory agreement (the “Advisory Agreement”) between Horizon Kinetics Asset Management LLC (the “Adviser”) and the Trust, on behalf of the Horizon Kinetics Inflation Beneficiaries ETF (the “Fund”).

Pursuant to Section 15 of the 1940 Act and related exemptive relief, the Advisory Agreement must be approved by: (i) the vote of the Trustees or a vote of the shareholders of the Fund; and (ii) the vote of a majority of the Independent Trustees, cast at a meeting called for the purpose of voting on such approval. In connection with its consideration of such approval, the Board must request and evaluate, and the Adviser is required to furnish, such information as may be reasonably necessary to evaluate the terms of the Advisory Agreement. In addition, rules under the 1940 Act require an investment company to disclose in its shareholder reports the material factors and the conclusions with respect thereto that formed the basis for the Board’s approval of an investment advisory agreement.

Consistent with those responsibilities, prior to the Meeting, the Board reviewed written materials from the Adviser, during the Meeting, representatives from the Adviser presented additional oral and written information to assist the Board with its evaluation of the Advisory Agreement. Among other things, representatives from the Adviser provided an overview of its advisory businesses, including information on investment personnel, financial resources, experience, investment processes, and compliance program. The representatives discussed the services to be provided by the Adviser, as well as the rationale for launching the Fund, the Fund’s proposed fees, and the operational aspects of the Fund. During the Meeting, the Board discussed the materials it received, including memoranda from legal counsel to the Trust on the responsibilities of the Trustees in considering the approval of investment advisory agreements under the 1940 Act, considered the written materials that it received before the Meeting and the oral presentations, and deliberated on the approval of the Advisory Agreements in light of this information. Throughout the process, the Trustees were afforded the opportunity to ask questions of and request additional materials from the Adviser. The Independent Trustees also met in executive session with counsel to the Trust to further discuss the proposed advisory arrangement and the Trustees’ responsibilities relating thereto. The consideration of the Advisory Agreement was conducted by both the full Board and the Independent Trustees, who also voted separately.

At the Meeting, the Board and the Independent Trustees evaluated a number of factors, including, among other things: (i) the nature, extent, and quality of the services to be provided by the Adviser to the Fund; (ii) Fund expenses and performance; (iii) the cost of the services to be provided and profits to be realized by the Adviser from its relationship with the Trust and the Fund; (iv) comparative fee and expense data for the Fund and other investment companies with similar investment objectives; (v) the extent to which economies of scale would be realized as the Fund grows and whether the overall advisory fee for the Fund would enable investors to share in the benefits of economies of scale; (vi) any benefits to be derived by the Adviser from the relationship with the Trust, including any fall-out benefits enjoyed by the Adviser; and (vii) other factors the Board deemed relevant. In its deliberations, the Board did not identify any single piece of information that was paramount or controlling and the individual Trustees may have attributed different weights to various factors.

Nature, Extent, and Quality of Services to be Provided. The Trustees considered the scope of services to be provided under the Advisory Agreement, noting that the Adviser will be providing investment management services to the Fund. The Board noted that it had received a copy of the Adviser’s registration form (“Form ADV”), as well as the response of the Adviser to a detailed series of questions that included, among other things, information about the background and experience of the firm’s key personnel, the services to be provided by the Adviser, and the ownership structure of the firm.

The Board also considered other services to be provided by the Adviser to the Fund, such as monitoring adherence to the Fund’s investment restrictions, compliance with various Fund policies and procedures and with applicable securities regulations, and the extent to which the Fund achieves its investment objective as an actively-managed fund.

Historical Performance. The Board noted that the Fund had not yet commenced operations and concluded that the performance of the Fund, thus, was not a relevant factor in their deliberations.

Cost of Services Provided and Economies of Scale. The Board then reviewed the proposed expense ratio for the Fund and compared it to expense ratio information of Inflation-Protected Bond ETFs and Real Estate ETFs as provided by Morningstar (the “Category Peer Group”). The Board noted that the expense ratio for the Fund was significantly higher than the median

Horizon Kinetics Inflation Beneficiaries ETF

Board Consideration and Approval of Advisory Agreement

June 30, 2021 (Unaudited) (Continued)

of its Category Peer Group. The Board further noted that the Fund's expense ratio was lower than the most direct competitor identified by the Adviser ("Selected Peer Fund"). The Board also noted that because the Fund has relatively few active peers, the Category Peer Group included several significantly larger, low-cost, passively-managed ETFs, and therefore the Category Peer Group may be an imperfect comparison by which to judge the Fund's expense ratio. The Board determined that the Fund's expense ratio was reasonable given the unique nature of the Fund's actively managed investment strategy.

The Board took into consideration that the advisory fee for the Fund was a "unified fee," meaning it would pay no expenses other than the advisory fee and certain other costs such as interest, brokerage, extraordinary expenses and, to the extent it is implemented, fees pursuant to a Distribution and/or Shareholder Servicing (12b-1) Plan. The Board noted that the Adviser would be responsible for compensating the Trust's other service providers and paying the Fund's other expenses out of its own fee and resources. The Board also evaluated the compensation and benefits expected to be received by the Adviser from its relationship with the Fund, taking into account an analysis of the Adviser's estimated profitability with respect to the Fund and the financial resources the Adviser had committed and proposed to commit to its business. The Board determined such analyses were not a significant factor given that the Fund had not yet commenced operations and consequently, the future size of the Fund was generally unpredictable. The Board noted it intends to monitor fees as the Fund grows in size and assess whether fee breakpoints may be warranted.

Conclusion. Based on a consideration of all the factors in their totality, the Board, including a majority of the Independent Trustees separately, unanimously: (i) concluded that the terms of the Advisory Agreement are fair and reasonable; (ii) concluded that the proposed advisory fees were fair and reasonable in light of the services to be provided; and (iii) determined that the approval of the Advisory Agreement for an initial term of two years was in the best interests of the Fund and its future shareholders.

Supplemental Information

(Unaudited)

Investors should consider the investment objective and policies, risk considerations, charges and ongoing expenses of an investment carefully before investing. The prospectus contains this and other information relevant to an investment in the Fund. Please read the prospectus carefully before investing. A copy of the prospectus for the Fund may be obtained without charge by writing to the Fund, c/o U.S. Bank Global Fund Services, P.O. Box 701, Milwaukee, Wisconsin 53201-0701, by calling 1-800-617-0004, or by visiting the Fund's website at <https://horizonkinetics.com/products/etf/infl/>.

QUARTERLY PORTFOLIO HOLDING INFORMATION

The Fund files its complete schedule of portfolio holdings for its first and third fiscal quarters with the Securities and Exchange Commission ("SEC") on Part F of Form N-PORT. The Fund's Part F of Form N-PORT is available without charge, upon request, by calling toll-free at 1-800-617-0004. Furthermore, you may obtain the Part F of Form N-PORT on the SEC's website at www.sec.gov.

PROXY VOTING INFORMATION

The Fund is required to file a Form N-PX, with the Fund's complete proxy voting record for the 12 months ended June 30, no later than August 31 of each year. The Fund's proxy voting record will be available without charge, upon request, by calling toll-free 1-800-617-0004 and on the SEC's website at www.sec.gov.

FREQUENCY DISTRIBUTION OF PREMIUMS AND DISCOUNTS

Information regarding how often shares of the Fund trade on an exchange at a price above (i.e., at a premium) or below (i.e., at a discount) the NAV of the Fund is available without charge, on the Fund's website at <https://horizonkinetics.com/products/etf/infl/>.

Horizon Kinetics Inflation Beneficiaries ETF

Review of Liquidity Risk Management Program

(Unaudited)

Pursuant to Rule 22e-4 under the Investment Company Act of 1940, the Trust, on behalf of the series of the Trust covered by this shareholder report (the “Series”), has adopted a liquidity risk management program to govern the Trust’s approach to managing liquidity risk. Rule 22e-4 seeks to promote effective liquidity risk management, thereby reducing the risk that a fund will be unable to meet its redemption obligations and mitigating dilution of the interests of fund shareholders. The Trust’s liquidity risk management program is tailored to reflect the Series’ particular risks, but not to eliminate all adverse impacts of liquidity risk, which would be incompatible with the nature of such Series.

In addition, the investment adviser to the Series has adopted and implemented its own written liquidity risk management program (the “Program”) tailored specifically to assess and manage the liquidity risk of the Series.

There can be no assurance that the Program will achieve its objectives in the future. Please refer to the prospectus for more information regarding the Series’ exposure to liquidity risk and other principal risks to which an investment in the Series may be subject.
