## **Semi-Annual Report**

June 30, 2019

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund or from your financial intermediary, such as a broker-dealer or bank if you hold your shares through such an institution. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report. If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action.

You may elect to receive shareholder reports and other communications from the Fund or your financial intermediary electronically by calling (877) 749-4980 if you hold your shares directly with RENN Fund, Inc., or, if you hold your shares through a financial intermediary, by contacting your financial intermediary. You may elect to receive all future reports in paper copies free of charge. You can inform the Funds or your financial intermediary that you wish to continue receiving paper copies of your shareholder reports by (877) 749-4980 if you hold your shares directly with RENN Fund, Inc., or, if you hold your shares through a financial intermediary, by contacting your financial intermediary.

## SHAREHOLDER LETTER

### JUNE 30, 2019 (UNAUDITED)

---

Dear Shareholders,

We are pleased to present the RENN Fund Inc. (“Fund”) Semi-Annual Report for the six-month period ended June 30, 2019. During the period, the Fund raised approximately \$2.187 million under a rights offering, selling an aggregate 1,487,989 shares at the purchase price of \$1.47. The offering was oversubscribed and limited on a prorated portion per the terms of the offering.

The Fund’s largest investment, Apyx Medical Corporation continues to develop end markets for its J-Plasma technology and related applications. The company is still assessing all of the potential applications and end markets for the technology, while the current results focused on cosmetic and laparoscopic surgical markets are encouraging.

At Texas Pacific Land Trust, the Fund’s second largest holding, oil and gas production continues to grow well above the broader industry, as leading energy companies develop resource on the company’s land. A nascent water business, which provides water and related transportation services to the oil and gas industry, continues to experience strong growth, as the company captures market share since the recent launch.

During the first six months of 2019, the Fund continued to add to its investment in Texas Pacific Land Trust, while initiating new positions in Franco Nevada Corporation and Wheaton Precious Metals Corporation. These companies hold valuable royalty rights, primarily related to oil and gas (Texas Pacific) and precious metals (Franco Nevada and Wheaton Precious Metals) production, yet incur little to no direct associated costs. They represent very a very distinct and alternative business model that confers exceptional profitability even at low or depressed prices for the underlying asset. Accordingly, they can be held as perpetual options on growth or recovery in their sectors without incorporating the classical ‘value trap’ that typically accompanies capital intensive drilling and mining companies. We believe they represent attractive purchases relative to their fundamental asset values, and we continue to have a positive outlook on many such “hard assets.”

Two trends may be observed about the future demand for gold and silver. One is money supply growth. The Federal Reserve’s highly processed and often-adjusted measure of inflation, the Consumer Price Index, was up 1.95% in 2018 and, through July of this year, is at a run-rate 2.33%. To the degree that this most looked-to measure of price pressure has been so benign for so many years, gold and silver as store-of-value assets have been much ignored. Yet perhaps the most basic measure of inflation or, more plainly, monetary debasement, is the change in money supply. In 2018, M2 money supply rose by 4.16% and is at a 2019 run-rate, through mid-August, of 5.19%. The practical level of purchasing power erosion experienced by most savers and consumers probably conforms more closely to the rate of money supply inflation than to the circumstance the CPI purports to describe. With time, the cumulative destructive impact of this level of inflation upon savings overwhelms the ability of statistical representations like the CPI to conceal.

The second trend relates to the concerted efforts by the gold and silver mining companies during this multi-year decline in prices to reduce operating costs and avoid incurring losses. In general, the miners are operating at breakeven. They have curtailed or eliminated expenditures to locate or develop new resources. Accordingly, their reserves are in decline, since production has been maintained. While output has yet to decline, a decline is almost inexorable, because production has been maintained due to a practice known as high-grading. This is the practice of restricting their mining activities to the highest-grade ores, which are the least costly to extract. However, the various miners project that the high-grade portion of their reserves will be exhausted in the coming year or so, at which time, output will decline and the supply/demand balance will necessarily shift toward a new equilibrium.

The Fund also added to CACI International, a technology-oriented information technology company that provides mission critical services to the U.S. Department of Defense. We believe that application derived from blockchain and cryptography have the potential to dramatically alter many established (very profitable) industries, and that cybersecurity and surveillance will soon be the highest priority for national security globally. Finally, the Fund reduced its position in Dundee Corporation, as little clarity has emerged on the future growth strategy of the company.

We believe that the Fund is uniquely positioned to benefit from undervalued, high quality companies in attractive industries. However, we also recognize the risks of generally high asset prices and debt levels, hence we continue to strategically hold cash and deploy it discriminately.

Portfolio turnover rate .....	0% <sup>(5)</sup>	12%	7%	72%	9%	0%

<sup>(1)</sup> Based on average shares outstanding for the period.

<sup>(2)</sup> Represents the impact of the Fund's rights offering of 1,487,989 common shares in February 2019 at a subscription price based on a formula. See Note 11 for more information.

<sup>(3)</sup> Total net asset value return measures the change in net asset value per share over the period indicated. Total market value return is computed based upon the Fund's unrounded New York Stock Exchange market price per share and excludes the effects of brokerage commissions. Dividends and distributions are assumed, for purposes of these calculations, to be reinvested at prices obtained under the Fund's dividend reinvestment plan.

<sup>(4)</sup> Average net assets have been calculated based on monthly valuations.

<sup>(5)</sup> Not Annualized.

<sup>(6)</sup> Annualized.

<sup>(7)</sup> Consolidated for the six months ended June 30, 2019 and for the year ended December 31, 2018 only.

See accompanying Notes to Financial Statements.

# RENN FUND, INC.

## CONSOLIDATED NOTES TO FINANCIAL STATEMENTS AS OF JUNE 30, 2019 (UNAUDITED)

---

### **Note 1 – Organization**

RENN Fund, Inc. (the “Fund”), is a registered, non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the “1940 Act”).

The Fund, a Texas corporation, was organized and commenced operations in 1994 and is registered under and pursuant to the provisions of Section 8(a) of the 1940 Act.

The investment objective of the Fund is to provide shareholders with above-market rates of return through capital appreciation and income by a long-term, value oriented investment process that invests in a wide variety of financial instruments, including but not limited to, common stocks, fixed income securities including convertible and non-convertible debt securities or loans, distressed debt, warrants and preferred stock, exchange traded funds and exchange traded notes, and other instruments.

Prior to a special shareholder meeting held on June 29, 2017 (the “Special Meeting”), RENN Capital Group, Inc. (“RENN Group”), a Texas corporation, served as the Investment Advisor to the Fund. At the Special Meeting, shareholders approved Horizon Kinetics Asset Management LLC\* (“Horizon” or the “Investment Advisor”), a registered investment adviser and wholly owned subsidiary of Horizon Kinetics LLC (“Horizon Kinetics”), as its investment manager. In its capacity as investment manager through June 30, 2017, RENN Group was responsible for the selection, evaluation, structure, valuation, and administration of the Fund’s investment portfolio, subject to the supervision of the Board of Directors. Since that time, Horizon has been responsible for the aforementioned responsibilities.

\* Kinetics Asset Management LLC and Kinetics Advisers LLC reorganized into Horizon Asset Management LLC in April of 2019. Horizon Asset Management LLC was then renamed Horizon Kinetics Asset Management LLC. Kinetics Asset Management LLC and Kinetics Advisers LLC and Horizon Asset Management LLC were all wholly owned subsidiaries of Horizon Kinetics LLC and Horizon Kinetics Asset Management LLC will remain a wholly owned subsidiary.

### **Note 2 – Accounting Policies**

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 “Financial Services-Investment Companies”.

#### **(a) Consolidation of Subsidiary**

On December 5, 2017, The Renn Fund, Inc. (Cayman) (the “Subsidiary”) was organized as a limited liability company, and is a wholly owned subsidiary of the Fund. The consolidated Schedule of Investments, Statement of Assets and Liabilities, Statement of Operations, Statements of Changes in Net Assets and Financial Highlights of the Fund include the accounts of the Subsidiary. All inter-company accounts and transactions have been eliminated in the consolidation for the Fund. The Subsidiary is advised by Horizon and acts as an investment vehicle in order to effect certain investments consistent with the Fund’s investment objectives and policies specified in the Fund’s prospectus and statement of additional information. As of June 30, 2019, total assets of the Fund were \$11,345,682, of which \$93,651, or approximately 0.83%, represented the Fund’s ownership of the Subsidiary.

The Fund can invest up to 25% of its total assets in its Subsidiary. The Subsidiary acts as an investment vehicle in order to invest in commodity-linked and bitcoin linked instruments consistent with the Fund’s investment objectives and policies. By investing in its Subsidiary, the Fund is indirectly exposed to the risks associated with the Subsidiary’s investments. The investments held by the Subsidiary are generally similar to those that are permitted to be held by the Fund and are subject to the same risks that apply to similar investments if held directly by the Fund. The Subsidiary is not registered under the 1940 Act and is not subject to all the investor protections of the 1940 Act. However the Fund wholly-owns and controls its Subsidiary, making it unlikely that the Subsidiary will take action contrary to the interests of the Fund. The Subsidiary will be subject to the same investment restrictions and limitations, and follow the same compliance policies and procedures, as the Fund.

# RENN FUND, INC.

## CONSOLIDATED NOTES TO FINANCIAL STATEMENTS (CONTINUED) AS OF JUNE 30, 2019 (UNAUDITED)

---

The Subsidiary is an exempted Cayman investment company and as such is not subject to Cayman Islands taxes at the present time. For U.S. income tax purposes, the Subsidiary is a Controlled Foreign Corporation (“CFC”) not subject to U.S. income taxes. As a wholly-owned CFC, however, the Subsidiary’s net income and capital gain will be included each year in the Fund’s investment company taxable income.

### **(b) Valuation of Investments**

All investments are stated at their estimated fair value, as described in Note 5.

### **(c) Investment Transactions, Investment Income and Expenses**

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Dividend income is recorded net of applicable withholding taxes on the ex-dividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends, if applicable, are paid (a portion of which may be reclaimable) or provided for in accordance with the applicable country’s tax rules and rates and are disclosed in the consolidated Statement of Operations. Withholding tax reclaims are filed in certain countries to recover a portion of the amounts previously withheld. The Fund records a reclaim receivable based on a number of factors, including a jurisdiction’s legal obligation to pay reclaims as well as payment history and market convention. Discounts or premiums on debt securities are accreted or amortized to interest income over the lives of the respective securities using the effective interest method.

### **(d) Federal Income Taxes**

The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its net investment income and any net realized gains to its shareholders. Therefore, no provision is made for federal income or excise taxes. Due to the timing of dividend distributions and the differences in accounting for income and realized gains and losses for financial statement and federal income tax purposes, the fiscal year in which amounts are distributed may differ from the year in which the income and realized gains and losses are recorded by the Fund.

*Accounting for Uncertainty in Income Taxes* (the “Income Tax Statement”) requires an evaluation of tax positions taken (or expected to be taken) in the course of preparing a Fund’s tax returns to determine whether these positions meet a “more-likely-than-not” standard that, based on the technical merits, have a more than fifty percent likelihood of being sustained by a taxing authority upon examination. A tax position that meets the “more-likely-than-not” recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the consolidated Statement of Operations.

The Income Tax Statement requires management of the Fund to analyze tax positions taken in the prior three open tax years, if any, any tax positions expected to be taken in the Fund’s current tax year, as defined by the IRS statute of limitations for all major jurisdictions, including federal tax authorities and certain state tax authorities. As of and during the open tax years ended December 31, 2015-2018 and as of and during the six months ended June 30, 2019, the Fund did not have a liability for any unrecognized tax benefits. The Fund has no examination in progress and is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

### **(e) Distributions to Shareholders**

The Fund will make distributions of net investment income and capital gains, if any, at least annually. Distributions to shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

The character of distributions made during the year from net investment income or net realized gains may differ from the characterization for federal income tax purposes due to differences in the recognition of income, expense and gain (loss) items for financial statement and tax purposes.

### **(f) Short-Term Investments**

The Fund invested a significant amount (46.72% of its net assets as of June 30, 2019) in the Fidelity Investment Money Market Government Portfolio Fund (“FIGXX”). FIGXX normally invests at least 99.5% of assets in U.S. government securities and repurchase agreements for those securities. FIGXX invests in compliance with industry-standard regulatory requirements for money market funds

---

for the quality, maturity, and diversification of investments. An investment in FIGXX is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although FIGXX seeks to preserve the value of investment at \$1.00 per share, it is possible to lose money by investing in FIGXX.

FIGXX files complete Semi-Annual and Annual Reports with the U.S. Securities and Exchange Commission for semi-annual and annual periods of each fiscal year on Form N-CSR. The Forms N-CSR are available on the website of the U.S. Securities and Exchange Commission at [www.sec.gov](http://www.sec.gov), and may also be viewed and copied at the Commission's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The net expense ratio per the March 31, 2019 annual report of Fidelity Investment Money Market Government Portfolio Fund was 0.18%.

### **Note 3 – Principal Investment Risks**

Investing in common stocks and other equity or equity-related securities has inherent risks that could cause you to lose money. Some of the principal risks of investing in the Fund are listed below and could adversely affect the net asset value (“NAV”), total return and value of the Fund and your investment. These are not the only risks associated with an investment in the Fund. Rather, the risks discussed below are certain of the significant risks associated with the investment strategy employed by the Fund. The below does not discuss numerous other risks associated with an investment in the Fund, including risks associated with investments in non-diversified, closed-end registered investment funds generally, other business, operating and tax risks associated with an investment in the Fund, and economic and other risks affecting investment markets generally, all of which are beyond the scope of this discussion.

*Liquidity Risks:* The Investment Advisor may not be able to sell portfolio securities at an optimal time or price. For example, if the Fund is required or the advisor deems it advisable to liquidate all or a portion of a portfolio security quickly, it may realize significantly less than the value at which the investment was previously recorded.

*Private Issuer Risks:* In addition to the risks associated with small public companies, limited or no public information may exist about private companies, and the Fund will rely on the ability of our Investment Advisor to obtain adequate information to evaluate the potential returns from investing in these companies. If the Investment Advisor is unable to uncover all material information about these companies, the Fund may not make a fully informed investment decision and may lose money on the investment.

*Interest Rate Risk:* When interest rates increase, any fixed-income securities held by the Fund may decline in value. Long-term fixed-income securities will normally have more price volatility because of this risk than short-term fixed-income securities. The negative impact on fixed-income securities from the resulting rate increases for that and other reasons could be swift and significant.

*Leveraging Risks:* Investments in derivative instruments may give rise to a form of leverage. The Investment Advisor may engage in speculative transactions which involve substantial risk and leverage. The use of leverage by the Investment Advisor may increase the volatility of the Fund. These leveraged instruments may result in losses to the Fund or may adversely affect the Fund's NAV or total return, because instruments that contain leverage are more sensitive to changes in interest rates. The Fund may also have to sell assets at inopportune times to satisfy its obligations in connection with such transactions.

*Distressed Debt Risks:* An investment in distressed debt involves considerable risks, including a higher risk of nonpayment by the debtor. The Fund may incur significant expenses seeking recovery upon default or attempting to negotiate new terms. Furthermore, if one of our portfolio companies were to file for bankruptcy protection, a bankruptcy court might re-characterize the debt held by the Fund and subordinate all or a portion of the Fund's claim to claims of other creditors, even, in some cases, if the investment is structured as senior secured debt. The bankruptcy process has a number of significant inherent risks, including substantial delays and the risk of loss of all or a substantial portion of the Fund's investment in the bankrupt entity.

*Bitcoin Risk:* The value of the Fund's investment in the Grayscale Bitcoin Trust is subject directly to fluctuations in the value of bitcoins. The value of bitcoins is determined by the supply of and demand for bitcoins in the global market for the trading of bitcoins, which consists of transactions on electronic bitcoin exchanges (“Bitcoin Exchanges”). Pricing on Bitcoin Exchanges and other venues can be volatile and can adversely affect the value of the Grayscale Bitcoin Trust. Currently, there is relatively small use of bitcoins in the retail and commercial marketplace in comparison to the relatively large use of bitcoins by speculators, thus contributing to price volatility that could adversely affect the Fund's direct investment in the Grayscale Bitcoin Trust. Bitcoin transactions are irrevocable, and stolen or incorrectly transferred bitcoins may be irretrievable. As a result, any incorrectly executed bitcoin transactions could adversely affect the value of the Fund's direct or indirect investment in the Grayscale Bitcoin Trust. Shares of the Grayscale Bitcoin Trust may trade at a premium or discount to the net asset value of the Grayscale Bitcoin Trust.

## CONSOLIDATED NOTES TO FINANCIAL STATEMENTS (CONTINUED) AS OF JUNE 30, 2019 (UNAUDITED)

---

### **Note 4 – Investment Advisory Agreement**

The Fund entered in to an Investment Advisor Agreement (the “Agreement”) with Horizon. Under the Agreement, Horizon is not paid an advisory fee on net assets less than \$25 million and thereafter will charge a management fee of 1.0% on net assets above \$25 million. Horizon performs certain services, including certain management, investment advisory and administrative services necessary for the operation of the Fund.

### **Note 5 – Fair Value Measurements**

Investments are carried at fair value, as determined in good faith by Horizon, subject to the approval of the Fund’s Board of Directors. The fair values reported are subject to various risk including changes in the equity markets, general economic conditions, and the financial performance of the companies. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the fair value of investment securities, it is possible that the amounts reported in the accompanying financial statements could change materially in the near term.

The Fund generally invests in common securities, preferred securities, convertible and nonconvertible debt securities, and warrants. These securities may be unregistered and thinly-to-moderately traded. Generally, the Fund negotiates registration rights at the time of purchase and the portfolio companies are required to register the shares within a designated period, and the cost of registration is borne by the portfolio company.

On a daily basis, as is necessary, Horizon prepares a valuation to determine fair value of the investments of the Fund. The Board of Directors reviews the valuation on a quarterly basis. Interim board involvement may occur if material issues arise before quarter end. The valuation principles are described below.

Unrestricted common stock of companies listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market is valued at the closing price on the date of valuation. Thinly traded unrestricted common stock of companies listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market is valued at the closing price on the date of valuation, less a marketability discount as determined appropriate by the Fund Managers and approved by the Board of Directors.

Restricted common stock of companies listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market is valued based on the quoted price for an otherwise identical unrestricted security of the same issuer that trades in a public market, adjusted to reflect the effect of any significant restrictions.

The unlisted preferred stock of companies with common stock listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market is valued at the closing price of the common stock into which the preferred stock is convertible on the date of valuation.

Debt securities are valued at fair value. The Fund considers, among other things, whether a debt issuer is in default or bankruptcy. It also considers the underlying collateral. Fair value is generally determined to be the greater of the face value of the debt or the market value of the underlying common stock into which the instrument may be converted.

The unlisted in-the-money options or warrants of companies with the underlying common stock listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market are valued at fair value (the positive difference between the closing price of the underlying common stock and the strike price of the warrant or option). An out-of-the money warrant or option has no value; thus the Fund assigns no value to it.

Investments in privately held entities are valued at fair value. If there is no independent and objective pricing authority (i.e., a public market) for such investments, fair value is based on the latest sale of equity securities to independent third parties. If a private entity does not have an independent value established over an extended period of time, then the Investment Advisor will determine fair value on the basis of appraisal procedures established in good faith and approved by the Board of Directors.

The Fund follows the provisions of Accounting Standards Codification ASC 820, Fair Value Measurements, under which the Fund has established a fair value hierarchy that prioritizes the sources (“inputs”) used to measure fair value into three broad levels: inputs based on quoted market prices in active markets (Level 1 inputs); observable inputs based on corroboration with available market data (Level 2 inputs); and unobservable inputs based on uncorroborated market data or a reporting entity’s own assumptions (Level 3 inputs).

# RENN FUND, INC.

## CONSOLIDATED NOTES TO FINANCIAL STATEMENTS (CONTINUED) AS OF JUNE 30, 2019 (UNAUDITED)

The following table shows a summary of investments measured at fair value on a recurring basis classified under the appropriate level of fair value hierarchy as of June 30, 2019:

	Level 1	Level 2	Level 3	Total
Convertible Bonds .....	\$ —	\$ —	\$ —	\$ —
Common Equities .....	6,027,351	—	—	6,027,351
Money Market Funds .....	5,265,343	—	—	5,265,343
<b>Total Investments</b> .....	<u>\$ 11,292,694</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 11,292,694</u>

One portfolio company is being classified as Level 3. At June 30, 2019, Petrohunter Energy Corporation was valued at \$0 due to bankruptcy proceedings and thus qualifies as a Level 3 security. The following table summarizes the valuation techniques and significant unobservable inputs used in determining fair value measurements for those investments classified as Level 3 as of June 30, 2019:

### Quantitative Information about Level 3 Fair Value Measurements

Portfolio Investment Company	Valuation Technique	Input	Value at 6/30/19
Convertible Bond	Asset Approach	Bankruptcy Recovery	\$ 0
Common Stock	Asset Approach	Bankruptcy Recovery	\$ 0

The Fund has adopted a policy of recording any transfers of investment securities between the different levels in the fair value hierarchy as of the end of the year unless circumstances dictate otherwise.

### Note 6 – Investments in Affiliated Issuers

An affiliated issuer is an entity in which the Fund has ownership of at least 5% of the voting securities, or where the Fund has a director on the issuer's board. In this instance, affiliation is based on the fact that Russell Cleveland previously served as a director for both the Fund and AnchorFree, Inc. As of December 31, 2018, Mr. Cleveland no longer served as a director for AnchorFree, Inc. During the year ended December 31, 2018, the Fund sold all of its holdings in AnchorFree, Inc. in the ordinary course of business through an involuntary corporate action. During the six months ended June 30, 2019, a revision in the corporate action occurred resulting in additional payment to the Fund in the amount of \$17,880.

### Note 7 – Federal Income Tax Information

At June 30, 2019, gross unrealized appreciation and depreciation on investments owned by the Fund, based on cost for federal income tax purposes, were as follows:

Cost of Investments .....	<u>\$ 18,315,194</u>
Gross Unrealized Appreciation .....	\$ 3,130,515
Gross Unrealized Depreciation .....	<u>(10,153,015)</u>
Net Unrealized Depreciation .....	<u>\$ (7,022,500)</u>

# RENN FUND, INC.

## CONSOLIDATED NOTES TO FINANCIAL STATEMENTS (CONTINUED) AS OF JUNE 30, 2019 (UNAUDITED)

---

As of December 31, 2018, the components of accumulated earnings (deficit) on a tax basis were as follows:

Undistributed ordinary income .....	\$	—
Undistributed long-term capital gains .....		—
Tax accumulated earnings .....		—
Accumulated capital and other losses .....		(13,345,300)
Net unrealized depreciation on investments .....		(7,651,989)
Total accumulated deficit .....	\$	<u>(20,997,289)</u>

As of December 31, 2018, the Fund had accumulated capital loss carryforwards as follows:

Not subject to expiration:

Short-term .....	\$	156,488
Long-term .....		13,174,153
	\$	<u>13,330,641</u>

To the extent that a fund may realize future net capital gains, those gains will be offset by any of its unused capital loss carryforward. Future capital loss carryforward utilization in any given year may be subject to Internal Revenue Code limitations. During the year ended December 31, 2018, the Fund utilized \$1,454,983 of capital loss carryforwards. During the year ended December 31, 2018, the Fund had capital loss carryforwards of \$97,082 expire.

There were no distributions during the years ended December 31, 2018 and 2017.

### Note 8 – Investment Transactions

For the six months ended June 30, 2019, purchases and sales of investments, excluding short-term investments, were \$468,383 and \$17,880, respectively.

### Note 9 – Borrowings

The Fund has entered into a margin agreement with Fidelity Brokerage Services, LLC, which allows the Fund to borrow money. The margin agreement is not made for any specific term or duration but is due and payable at the brokerage firm's discretion. The Fund has a policy allowing it to borrow not more than 33% of the Fund's Net Asset Value as of the time of borrowing for purposes of taking advantage of investments deemed to be in the best interest of the Fund or to borrow such amounts as deemed necessary and prudent as a temporary measure for extraordinary or emergency purposes. Federal regulations under the 1940 Act require that the Fund maintain asset coverage in relation to any borrowed amount.

The average interest rate, average loan balance, maximum outstanding and amount recorded as interest expense for the Fidelity Brokerage Services LLC margin account for the 3 days the Fund had outstanding borrowings were 4.47%, \$1,491,600, \$1,491,600 and \$555, respectively. At June 30, 2019, the Fund had no outstanding borrowings under the margin account.

### Note 10 – Indemnifications

In the normal course of business, the Fund enters into contracts that contain a variety of representations which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund expects the risk of loss to be remote.

# RENN FUND, INC.

## CONSOLIDATED NOTES TO FINANCIAL STATEMENTS (CONTINUED) AS OF JUNE 30, 2019 (UNAUDITED)

---

### **Note 11 – Capital Share Transactions**

On February 8, 2019, the Fund issued 1,487,989 new common shares in connection with a rights offering. Stockholders of record date December 28, 2018 were issued non-transferable rights for every share owned on that date. The rights entitled the stockholders to purchase one new common share for every three rights held, not including additional subscription privileges.

The subscription price was equal to lesser of (i) 105% of average closing NAV per share over the three days of trading leading up to and including the expiration of the expiration Date and (ii) 90% of the average closing market price per share over the three days of trading leading up to and including the expiration Date. The final subscription price was \$1.47 per share, which resulted in proceeds to the Fund of \$2,187,343. Horizon paid all expenses relating to the offering.

### **Note 12 – Events Subsequent to the Fiscal Period End**

The Fund has adopted financial reporting rules regarding subsequent events which require an entity to recognize in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet. Management has evaluated the Fund's related events and transactions that occurred through the date of issuance of the Fund's financial statements. There were no events or transactions that occurred during this period that materially impacted the amounts or disclosures in the Fund's financial statements.

# RENN FUND, INC.

## OTHER INFORMATION

### JUNE 30, 2019 (UNAUDITED)

---

#### **Quarterly Reports**

The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission (“SEC”) for the first and third quarters of each fiscal year on Form N-Q. A copy of each such Form N-Q is available on the SEC’s website at [www.sec.gov](http://www.sec.gov). Such forms may also be reviewed and copied at the SEC Public Reference Room in Washington, D.C., and you may call the Public Reference Room at 1-800-SEC-0330 for information on its hours, etc.

#### **Proxy Voting Policies and Procedures**

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available, upon request by calling collect (646) 495-7330. You may also obtain the description on the Fund’s website at [www.horizonkinetics.com](http://www.horizonkinetics.com)

#### **Portfolio Proxy Voting Records**

The Fund’s record of proxy voting regarding portfolio securities is presented each year for the 12-month period ended June 30. It is filed with the SEC on Form N-PX and is available by calling collect (646) 495-7330 and on the SEC’s website at [www.sec.gov](http://www.sec.gov).

#### **Dividend Reinvestment Plan**

Pursuant to the Fund’s Dividend Reinvestment and Cash Purchase Plan (the “Plan”), a stockholder whose shares are registered in his or her own name will be deemed to have elected to have all dividends and distributions automatically reinvested in Fund shares unless he or she elects otherwise on a current basis. Stockholders whose shares are held in nominee names will likewise be treated as having elected to have their dividends and distributions reinvested. You may elect to receive cash distributions, net of withholding tax, by requesting an election form from the Fund’s Plan Agent, American Stock Transfer & Trust Co. You may terminate participation by notifying the Plan Agent in writing. If notice is received by the Plan Agent not less than 10 days prior to any dividend or distribution it will be effective immediately. Information regarding income tax consequences should be directed to your tax consultant – the Plan will furnish information by January 31 following the year of distribution as to the category of income that the distributions represent. Your questions regarding the Plan should be directed to the Fund’s Plan Agent, American Stock Transfer & Trust Company, LLC., whose telephone number is (718) 921-8200 extension 6412 and whose address is 6201 15th Ave, Brooklyn, NY 11219-5498.

#### **Consideration of the Investment Advisory Agreement**

At a meeting of the Board of Directors held on June 13, 2019, the Directors, by a unanimous vote (including a separate vote of those Directors who are not “interested persons” (as the term is defined in the 1940 Act), approved the Investment Advisory Agreement (“Advisory Agreement”) for the Renn Fund, Inc.

In approving the Advisory Agreement, the Fund’s Board of Directors reviewed certain materials furnished by Horizon Kinetics Asset Management LLC (“Horizon Kinetics”), which included information on Horizon Kinetics’ investment approach, including the strategy for the Fund. In approving the Advisory Agreement, the Board of Directors considered a number of factors, including those described below. In light of the broad scope of factors and information considered, the Directors did not find it practicable to quantify or assign relative weights to the specific factors. The approval determinations were made on the basis of each Director’s business judgment after consideration of all the factors taken as a whole, although individual directors may have given different weights to certain factors and assigned various degrees of materiality to factors considered. Among other things, the Board considered the following matters and reached the following conclusions:

**Nature, Extent and Quality of Investment Advisory Services.** The Board, including the independent Directors, considered the nature, extent and quality of investment advisory services to be provided by Horizon Kinetics to the Fund. The Board reviewed the personnel and resources of Horizon Kinetics, including the education and experience of its investment professionals, and concluded that the services to be provided by Horizon Kinetics are appropriate and that the Fund is likely to benefit from the same.

# RENN FUND, INC.

## OTHER INFORMATION (CONTINUED)

JUNE 30, 2019 (UNAUDITED)

---

**Investment Performance.** The Board reviewed the historical performance of the Fund and compared such prior performance with the performance of comparable advisers and investment companies. Although Horizon Kinetics does not currently manage any investment funds similar in size and scope to the Fund, the Board concluded that the favorable performance of Horizon Kinetics demonstrated by such comparisons was an important factor in their evaluation of the quality of services expected to be provided by Horizon Kinetics under the Advisory Agreement.

**Costs of the Services Provided to the Fund.** The Board considered comparative data from publicly available information with respect to services rendered and the advisory fees paid to investment advisors of other investment companies with similar investment objectives. The Board also considered the Fund's operating expenses and expense ratio compared to such other companies, as well as how those might change as a result of the Advisory Agreement. Based on its review, the Board concluded that the fee structure under the Advisory Agreement was extremely favorable for shareholders given that the Fund does not pay any management fee on net assets less than \$25 million. As of December 31, 2018, the Fund's net assets were approximately \$8.5 million. The Board also considered whether any indirect benefits would be expected to be realized by Horizon Kinetics from its relationship with the Fund. Although the terms of the proposed Investment Advisory Agreement contemplate that Horizon Kinetics may enter into "soft dollar" arrangements with non-affiliate brokers or dealers, as is typical in the industry, Horizon Kinetics has informed the Board that its current policies do not permit Horizon Kinetics to enter into such arrangements.

**Profitability of the Investment Adviser.** The Board reviewed the financial condition of Horizon Kinetics, which it determined to be sound, and the expected profitability of Horizon Kinetics as the Fund's investment adviser, and concluded that the lack of management fees payable to Horizon Kinetics currently and the management fees that would be payable to Horizon Kinetics if assets were to increase above \$25 million were reasonable taking into account the fees charged by other advisers for managing comparable investment companies.

**Conflicts of Interest.** The Board evaluated the potential for conflicts of interest and considered such matters as the experience and ability of the advisory personnel that will be assigned to the Fund; the basis of decisions to buy or sell securities for the Fund; and the substance and administration of Horizon Kinetics' Code of Ethics. The Board concluded that Horizon Kinetics' standards and practices relating to the identification and mitigation of possible conflicts of interests were satisfactory and reasonable in light of its business.

Based on the information provided to the Board and its evaluation thereof, the Board, including a majority of independent directors, voted to approve the Advisory Agreement.
